

Installation_Instructions

Duplicate File Finder v1.0 — Installation Guide

Thank you for downloading Duplicate File Finder!

Follow the steps below to run the application:

Step 1 — Extract the ZIP

- Right-click the ZIP file
 - Choose "Extract All"
 - Open the extracted folder
-

Step 2 — Open the App Folder

Navigate to:

app/duplichecker.exe

Step 3 — Run the Application

- Double-click `duplichecker.exe`
- If Windows shows a SmartScreen warning:
 - Click "More Info"
 - Click "Run Anyway"

(This happens because the app is unsigned, which is normal for small indie tools.)

Step 4 — Start Using the Tool

1. Select a folder
2. Click "Scan"

3. Wait for duplicate analysis
 4. View duplicate groups
 5. Delete unnecessary files
-

System Requirements

- Windows 10 or Windows 11
 - No admin permissions required
 - No installation needed
-

Troubleshooting

- **!** If the EXE doesn't open:
 - Ensure you extracted the ZIP fully
 - Re-download the file
 - Disable antivirus temporarily (false positive — safe app)
 - **!** If scanning is slow:
 - Large folders with thousands of files take longer
 - Close background apps to improve performance
-
